

# Design at your Desk

## Art Outside the Lines

Where do you see art? The art that you see in public often takes the form of sculpture or murals. You see it outside a building or on the side of one.

Where could you see art? The artists at Electric Coffin challenge the idea of where art could and should exist in a city. They imagine places art could go (billboards, rooftops, street signs) and use untraditional materials to make some of their art (yarn, fabric, reflective paint, and recycled items).

Electric Coffin

### Design Challenge: Art Belongs Here

Draw and/ or create model of a structure and decorate it with art.

- What is the purpose of your structure (building, billboard, street sign)?
- How will you decorate it with art?
- What untraditional art materials will you use?
- How does your design make the city fun?
