Special thanks to our sustained members and sponsors for their support of the Seattle Architecture Foundation.

Thank you to all who attended our Annual Open House last week! It's always great to see so many of you connect and explore the diverse architectural landscape of Seattle.

Connect people of all ages to the history and future of the built environment through architecture and urban design tours, public programs, and events at the Center for Architecture.

For more information on renting the Center for your next social gathering or event, please visit our website or contact us directly.

The City of Seattle and WSDOT are involved in another lid-on-the-road project in downtown Seattle. Not only would this generate revenue, but it would also help improve air quality in the area.

A Soirée for Architects: A Closer Look at LMN’s Performance Hall at the Seattle Symphony

LMN came to fabricate the ceiling for the performance space designed by LMN Architects and Belle & Company, an immersive experience.

If you are interested in hosting a Soirée at the Center, please contact us to discuss how the technology is digitally integrated to enhance the functionality of the space. Gabe Kean from Belle & Company will discuss how LMN came to fabricate the ceiling for the performance space.

We would like to thank all of the volunteers who help make our programs a success. Volunteers help the Design Studio to offer hands-on activities each month and caregivers to explore architecture through Everyday Objects.

Volunteers

Keep an eye on our calendar for upcoming events, including District Tours and other programs at the Center for Architecture.

District Tours

Volunteers help the Design Studio to offer hands-on activities each month.

The lighting group

Volunteers help the Design Studio to offer hands-on activities each month.
