

Seattle Architecture Foundation 2025 Annual Campaign

For 42 years, the Seattle Architecture Foundation has connected residents and visitors with Seattle's special architecture, design, and history. During 2025, we will expand our signature education programs and events that make us an essential part of shaping Seattle: our architectural walking tours, our hands-on workshops, and our public events. Now more than ever, we need your support to continue providing these critical programs that connect the community to our architecture and design.

What Your Investment Supports

SAF produces accessible programs designed to connect the public to the built environment. We host these programs around Seattle at architecture firms, schools, community centers, and the Center for Architecture & Design.

Architectural Walking Tours

Having run continuously since the early 1980s, our architectural walking tours are an essential Seattle institution that will involve more than 1,000 participants in 2025. Each tour is designed to focus on a specific theme or neighborhood and is led by one of our expert volunteer guides.

Workshops & Field Trips

Each year, hundreds of adults and kids of all ages attend our workshops and field trips where they learn architecture and design concepts through model building and hands-on activities. Our curriculum encourages creativity and problem-solving skills in response to contemporary design issues and helps participants explore the history of Seattle's built environment.

Public Events & Exhibits

Throughout the year, we host lectures, panel discussions, and exhibits that connect the community to architecture and design. Our Exhibit will showcase the talent of Seattle's architects and designers and give them an opportunity to discuss and share their work with the public.
