

SEATTLE
ARCHITECTURE
FOUNDATION

2026 Annual Fundraising Campaign

For nearly five decades, the Seattle Architecture Foundation has engaged the public around the important influence design has on our lives. Through educational programs and community partnerships, we inspire people to take an active role in shaping our beautiful city. As we prepare for another year of service, your support enables us to continue this important work.

What Your Investment Supports

In sponsoring SAF, you become part of a growing network of architecture and design enthusiasts championing the value of healthy, human-centered built environments that uplift individuals and communities.

Our longest-running and largest program, SAF's **Architectural Walking Tours** foster connections between people and their environments. We offer nearly 20 tours year-round, covering downtown, Seattle Center, and several noteworthy neighborhoods. Tours are led by dedicated volunteers who share Seattle's history and design evolution.

Youth & Family Programs introduce children to architecture and design principles. Through workshops, tours, and opportunities to connect with professionals, we inspire future architects and designers who shape our communities.

Through **Public Lectures & Exhibits**, we promote civic engagement with architecture. These programs showcase contemporary industry practices, demystifying the design process and giving members of the public an avenue to engage with design development in their communities.
