2025-26 Exhibit Volunteer Commitment

SAF Architecture Models Exhibit

The mission of the Seattle Architecture Foundation is to enhance the public's awareness of and engagement with the built environment through educational programs and collaboration with community partners. The purpose of this commitment is to make clear what is expected of individuals who agree to sit on the Model Exhibit Committee in 2025-26.

About the Architecture Models Exhibit

SAF's architectural model exhibit will display physical and digital models, architectural renderings and a variety of other displays that represent the design process. The exhibit engages the public through a unique theme each year and selects programming that connects audiences to the process of architectural design and the role of architecture in our everyday lives. Through this exhibit, local and/or recent architectural projects and the tools used to develop them take center stage.

Goal of the Model Exhibit Committee

The primary goal of the model exhibit committee is to plan and implement the annual architectural model exhibit slated for Spring 2026.
